

COOKIE POLICY

LearnArmenia

Effective Date: 25.04.2026

1. Introduction

This Cookie Policy explains how LearnArmenia uses cookies and similar technologies when you visit the landing site, access the application, or interact with protected forms and authentication flows.

When we refer to cookies in this policy, we also mean similar browser technologies such as local storage, session storage, and security tokens where they serve the same practical purpose.

2. Technologies We Use

We use a limited set of browser technologies to remember preferences, support sign-in, protect the service from abuse, and keep core functionality working reliably.

2.1 `la_cookie_consent` in local storage to remember your cookie settings.

2.2 `la_language` in local storage to remember your selected interface language.

2.3 Session or persistent browser technologies used to support authentication, secure access, and functional preferences.

3. Strictly Necessary and Functional Technologies

Some technologies are required for the Service to function properly and are treated as essential. They cannot be switched off without affecting core features.

3.1 User authentication and account access.

3.2 Google sign-in initiation and completion.

3.3 Language, interface, and consent preferences.

3.4 Fraud prevention, abuse detection, and secure connection handling.

3.5 Request routing, availability, and service integrity.

4. Google Sign-In

If you choose to continue with Google, Google may use its own cookies on Google-controlled domains as part of its authentication flow.

LearnArmenia receives and verifies the Google credential needed to authenticate you or create your account. We do not control cookies set by Google on Google services.

5. Cloudflare Proxy and Security

We use Cloudflare as a reverse proxy and security provider to help deliver the Service safely and efficiently.

- 5.1 Filtering malicious traffic and automated abuse.
- 5.2 Applying edge security checks and connection integrity controls.
- 5.3 Improving delivery performance, resilience, and availability.
- 5.4 Setting security or challenge cookies when Cloudflare determines they are necessary.

6. Cloudflare Turnstile

Protected forms may use Cloudflare Turnstile to distinguish legitimate users from bots before a request is processed.

- 6.1 Registration and sign-in protection.
- 6.2 Password reset request protection.
- 6.3 Bug report and similar abuse-sensitive form protection.
- 6.4 Submission of a Turnstile token and your IP address to Cloudflare for verification.

7. Optional Analytics

Your cookie preference is stored so that optional analytics tools can respect your choice where such tools are enabled.

If LearnArmenia introduces a consent-based analytics provider or materially changes how analytics technologies are used, we will update this policy accordingly.

8. Third-Party Services

Some cookies or similar technologies may be placed or managed by third-party providers that support the Service. Their handling of cookies and related data is governed by their own policies.

- 8.1 Google LLC for sign-in and identity services.
- 8.2 Cloudflare, Inc. for proxying, security, performance, and Turnstile verification.

9. How You Can Control Cookies

You can manage cookies through your browser settings and clear browser storage at any time.

9.1 Blocking essential or security-related technologies may prevent sign-in or access to protected features.

9.2 Clearing browser storage may reset your language and cookie preferences.

9.3 You can review your choices through the cookie banner whenever optional technologies rely on consent.

10. Retention

Session technologies expire automatically when the browser session ends or according to the service session rules.

Persistent technologies and local storage remain until they expire, are rotated, or you delete them from your browser. Third-party providers may apply their own retention periods.

11. Changes and Contact Information

We may update this Cookie Policy when our technologies, providers, or legal obligations change.

Continued use of LearnArmenia after an update means the revised version applies from its effective date.

If you have questions about cookies or similar technologies used by LearnArmenia, contact us using the addresses below.
